CLASSIC MASSAGE

The basic type of massage with a number of targeted massage touches, which overheat the massaged tissue, improve its blood circulation, help get rid of dead skin parts and support the flushing out of unwanted substances. It has a positive effect on the psyche. After the massage you will be satisfied, relaxed and rested.

CHOCOLATE MASSAGE

It is a unique experience full of the aroma of chocolate. Chocolate has the ability to detoxify the body and protect the skin from harmful free radicals. It participates in the stimulation of collagen and elastin, which are a guarantee of beautiful and young skin. Cacao contains vitamins, mineral salts, iron, calcium, magnesium and phosphorus. At the beginning of this procedure, dead skin cells are removed using a whole-body peel. In the second part, a warm dark chocolate rubs the whole body with gentle massage touches. At the end of the procedure, the client rests in a chocolate wrap.

PARAFFIN WRAP

Paraffin is a type of wax that contains a large amount of minerals and vitamins, including magnesium, silicon and a large amount of iron and vitamin E. It excels in its ability to retain heat. It solidifies at a temperature of 52 to 62 degrees Celsius. Paraffin overheats, relaxes, increases blood circulation and opens pores. Its effects are therefore both health and aesthetic. It is used for diseases of the musculoskeletal system, for chronic rheumatoid arthritis, for diseases of the small joints of the limbs, dry or cracked skin on the hands or feet.

BANK MASSAGE

Bank massage, or cupping, cleanses the body of "bad blood" (impurities) so that there is a balance of body fluids, improved blood circulation and oxygenation of the body, relaxation of the muscles and mental well-being. Massage with banks creates a feeling of lightness. Sauna is recommended for the following days after the treatment, for flushing out of impurities from the subcutaneous tissue.
